International Seminar on

Goho-Wood 2012

Initiatives by Industry Association in Japan to Combat Illegal Logging and Promote Legality Verification of wood and Wood Products ~

> 11th November 2012 Yokohama, Japan

Japan Lumber Importers' Association (JLIA)

Executive Director Y. Ohashi

About "JLIA"

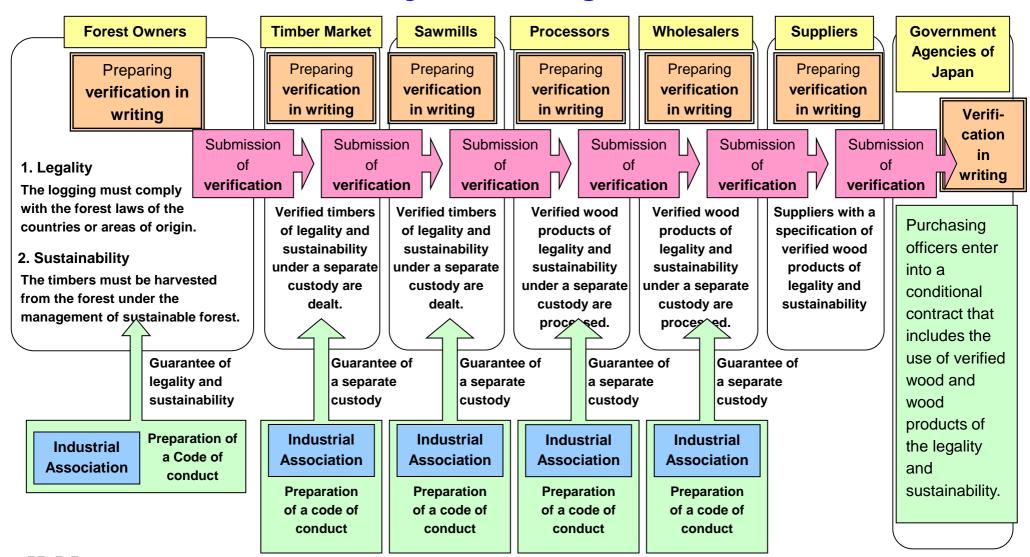

Japan Lumber Importers' Association (JLIA)

- A voluntary membership association of timber import,
 63 years since the establishment in 1950.
- To enhance intimate relationship between timber importers, to conduct necessary activity with a result of research and investigation. to present comments to Government & other relative industries.
- Membership: 54 companies, composed of general trading houses, timber trading companies, makers, wholesalers, etc. 40 of those are active importers.
- JLIA members import about 10-million m3 per year, almost 60% share of total Timber Imports in Japan.

Verification by private enterprises authorized by relative organizations

by Forestry Agency

JLIA Authorized Supplier

- Year 2004~2005: Surveyed the overseas traceability system and documents related to timber shipment, in cooperation with Forestry Agency.
- Year 2006: Based on the guideline by the Forestry Agency, JLIA established Authorization System and started registration of JLIA Authorized Supplier.
- Year 2010: Submitted a request letter to overseas industry associations requesting for supplying Goho-Wood (including CoC certified timber).
- 39 members are registered as JLIA Authorized Supplier as of now, of which imported volume accounts for 97~98 % of total imported volume by all members.

Major Timber Imports and Goho-Wood

JLIA only

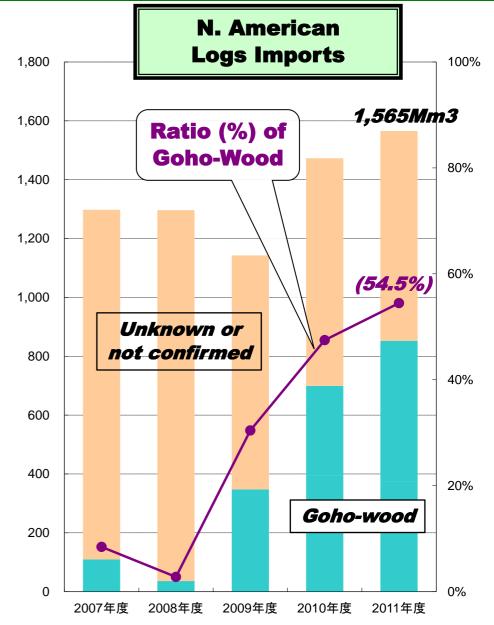

JLIA

Stronger demand for Goho-Wood from manufacturers using logs as materials,

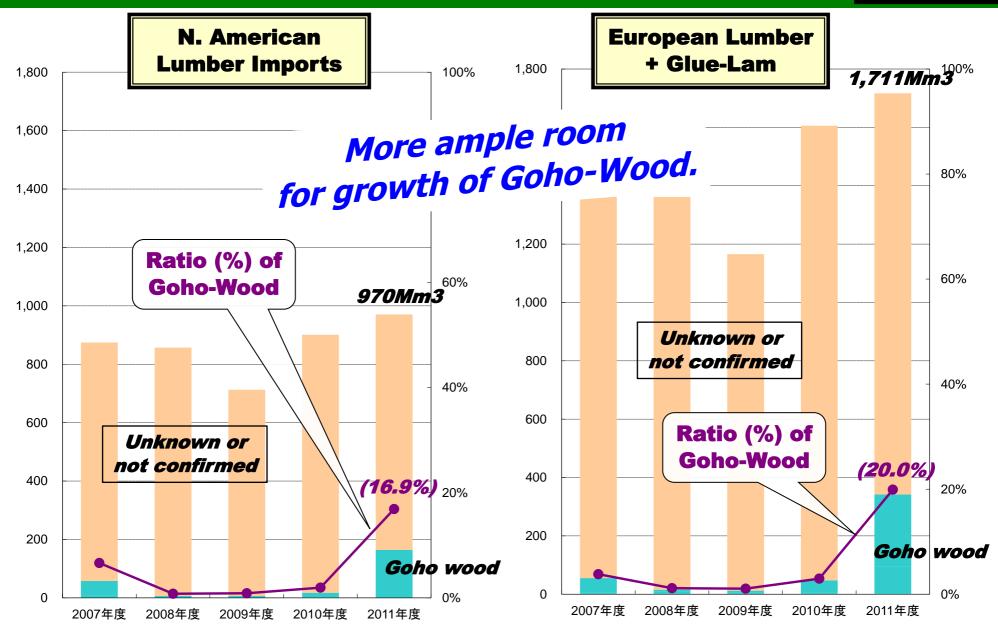

... like N. American Logs for plywood.

Whereas, demand for Goho-Wood from distributors who purchase wood products, like Softwood Sawn-Timber, is still weak.

Major Timber Imports and Goho-Wood

JLIA only

Promoting the Use Wood and "GOHO-WOOD"

JLIA reconfirmed its commitment to the positive procurement and domestic supply of GOHO-WOOD.

In the sense of the legality certification, the verification method by Association Authorization system has the same effect as the method of FM & CoC certification system.

To ensure the reliability of the system, JLIA and the authorized suppliers keep understanding the system accurately and make proper use of it.

Thank you for your kind attention !!!
